

How to Install MaxTRAQ Educational

Follow these simple steps to download and install MaxTRAQ Educational:

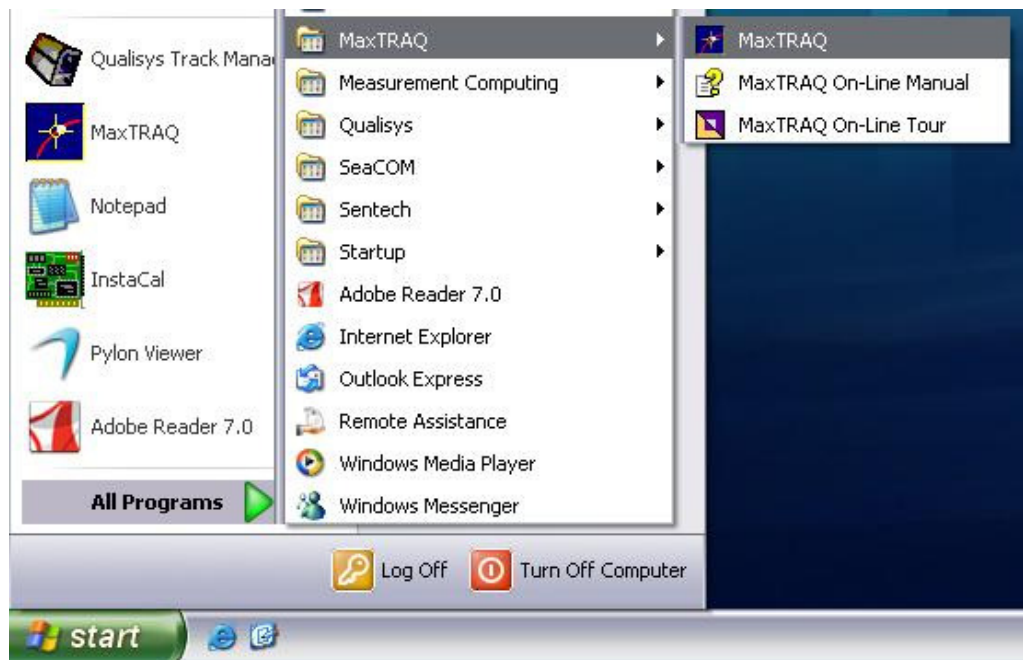

1. Download the MaxTRAQ installer to a folder on your computer by clicking on the [Download Link](#).
2. After the download has completed, double-click on the MaxTRAQ installer to start the installation

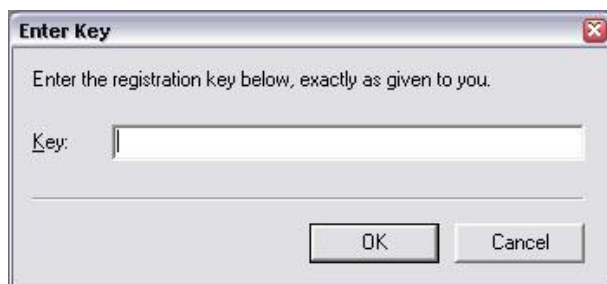

3. Follow the installation instructions. In most cases, the defaults will be appropriate.

4. To start MaxTRAQ, select MaxTRAQ from Windows Start Menu.

5. When you run MaxTRAQ for the first time, it will ask you for your license key. Enter the key supplied with your book and press Ok.

6. You're now ready to use MaxTRAQ. For instructions on how to use the Video Clips supplied with this software, see [How to Use the Video Files](#). You can also watch the [Tutorial Video](#). Please note that this video shows the full blown version of MaxTRAQ 2D and touches on MaxTRAQ Lite+. You can still benefit from watching the video. But remember, not all features are in your MaxTRAQ Educational.
